Footnotes

- The baseline figures are static and represent the performance required by year-end to improve upon the three-year averages published at the start of the year. Baselines have been updated as per a previous report (AP14/26 – Appendix A).
- The comparison to the baseline represents the last twelve months performance against the baseline.
- The status graphic is a subjective assessment of current performance compared to the baseline. Symbol key: ⬆️ Meeting baseline target; ⬇️ Not meeting baseline target; ⬆️ Performance/measure improved; ⬆️ Performance/measure not changed; ⬆️ Performance/measure deteriorated.
- Latest known rankings shown. For crimes recorded and solved, data is collected from police forces by the Home Office and rankings published monthly, those shown being for the period February 2014 – January 2015. Similarly for Victims' Satisfaction, but one month slower, so those shown are for the period January 2014 – December 2014. Public Confidence rankings are published quarterly by the Office for National Statistics from respondents to the Crime Survey of England & Wales; the period of the latest data is shown at footnote 6. Anti-Social Behaviour rankings are published annually, the latest being for the financial year 2013/14. Rankings are out of the 43 Police Forces in England & Wales, with the exception of data for Public Confidence which is of 42 (Metropolitan Police and City of London combined).
- National guideline standard 90% (http://library.college.police.uk/docs/homeoffice/call_handling_standards.pdf)
- These indicators are updated on a quarterly basis, the latest being for the period October 2013 – September 2014, with newer data released on or after 23rd April 2015.

The following charts summarise performance relating to the above objectives.
