

Station(s) Heart Suffolk

MVO A night out with your mates, you can't beat it can you. The jokes, the laughs, the dancing, the chat up lines, the memories that will last forever. Just make sure those memories are good ones.

Look out for each other tonight, keep an eye on each other's drinks and make sure you stick together.

This Christmas, think again before you drink another drop.

A message from Suffolk Community Safety Partnerships and Suffolk Police Crime Commissioner.

MVO Girls. If you're off out tonight for a Christmas drink, you're probably just thinking about what you're going to wear, where you're going to go and if maybe, just maybe, you might meet the man of your dreams...

But if you are going to meet a tall dark stranger... make sure it's not for your lift home, eh. Pre book your transport.

This Christmas, think again before you drink another drop.

A message from Suffolk Community Safety Partnerships and Suffolk Police Crime Commissioner.

MVO This Christmas, someone is going to get lucky, they're going to get everything they ever dreamed of. The latest smart phone, a nice bit of cash maybe... the keys to a car. Just make sure they're not yours.

Thefts do happen and if you're out drinking, you're less aware of what's happening around you, so don't carry your wallet in your back pocket or leave your valuables on a table.

This Christmas, think again before you drink another drop.

A message from Suffolk Community Safety Partnerships and Suffolk Police Crime Commissioner.

MVO

Lads. Tonight's the night you celebrate Christmas in style, pubs, clubs... then who knows where you'll end up.. Just make sure it's not a cell or A and E.

Alcohol affects everyone in different ways and it can make people more aggressive. The best way to stay out of trouble? Stay in control and be aware of how much your drinking.

This Christmas, think again before you drink another drop.
