University Campus Suffolk (UCS) has been commissioned by the Suffolk Police & Crime Commissioner to explore the views of a number of people who have had experience of the Criminal Justice System (CJS) either as a victim, an employee or a support worker assisting someone during an investigation or trial in relation to crimes against business. Please read this information sheet before making up your mind about whether or not you would like to help us with our research.

We would like to know about your experiences of the CJS relating to the support that the business community believes they receive after they have become a victim of crime. As such it would be helpful if you could tell us what you think works well, what you think doesn't work so well and how it has affected you. Also we would like to find out your views on what would make things better, to provide a more supportive environment and which areas you believe deter people from reporting an incident.

If you would like to participate in this research please go to the link below and complete the online questionnaire:
