- 1.4 The Professional Standards Department continue with their Complaint Reduction Initiative aimed at educating officers and staff in complaint avoidance. Full details are included in the Key Findings together with how complaint trends are addressed.
- 1.5 Direction and Control Complaints which are those concerning policies and procedures rather than the conduct of an individual, have been subject to change following the introduction of new IPCC Statutory Guidance. From the 22 November 2012 all such issues are recorded as public complaints under the category of 'organisational'. During the reporting period, only three Direction and Control complaints were recorded.
- 1.6 On 7 July 2014, Service Recovery was introduced to replace the Dissatisfaction process in order to deal with low level matters, where there is no complaint, quickly and to the satisfaction of the member of public. This process is managed by Professional Standards which allows a consistent approach to dealing with all issues raised by the public concerning the service they receive. During the reporting period, 214 Service Recovery issues were recorded. Each issue is categorised into the reasons for the matter being raised.
- 1.7 Lessons Learned as a result of complaints received by Suffolk Constabulary are included in this paper.

- 1.8 In the reporting period, 12 public complaint cases were recorded where the complainant is from a Black or Minority Ethnic Group which have resulted in 12 separate allegations.
- 1.9 The most common allegation recorded by complainants is 'other neglect or failure in duty'. A total of 252 allegations were made against this category (40%). This is followed by 87 allegations for 'incivility' (14%).
